

List of next generation immunodeficient mice

NOG-Hairless (NOG-hr)	
Strain name	NOD.Cg-Prkdc<scid> Il2rg<tm1Sug> Hr<hr>/Jic
Strain description	Hairless NOG mouse
Strain development	Dr. Kozaburo Esaki of Central Institute for Experimental Animals introduced ICR-hr and established the BALB/cA-hr strain by backcrossing. This hr trait was introduced into NOG mice to establish a NOG-Hairless line.
