

List of next generation immunodeficient mice

NR2G (NOD-Rag2 KO, IL2rg KO)	
Strain name	NOD.Cg-Rag2<tm1Fwa> Il2rg<tm1Sug>/Jic
Strain description	NOD background Rag2, Il2rg deficient mouse
Strain development	C57BL/6-Rag2 KO mice were backcrossed to NOD, and NR2G strains were established by mating with NOD-Il2rg KO.
Research application	Alternatives of NOG mice
References	Katano I. et al. (2014) NOD-Rag2 null IL-2R γ null mice: an alternative to NOG mice for generation of humanized mice. EXP. Anim. 63(3):321-30.
