

Genetic characteristics of rasH2 mice

- Human prototype *c-Ha-ras* gene
- 3 copies of the transgene were integrated in tandem array

Structure of integrated human *c-Ha-ras* transgene in Tg-rasH2 mouse

Genetic characteristics of rasH2 mice

Chromosome 15E3

N15

N20

FISH

Southern

rasH2 mice : ♀ BALB/cByJ x ♂ C57BL/6J-TgrasH2

To be achieved wide-ranging carcinogenesis
